

COMP 1950: intermediate web design and development

Lectures
2/12 available

Exercises

Quizzes

Home page could be divided into sections like this, or it can just be like andrew h's page with all the information there already.

Or maybe this is how it would be divided on mobile only? (to save space)

footer with these resources will be at the bottom of every page. should it be sticky?

1 - Tools & Standards

2 - HTML5

XHTML

HTML 5

CSS

Summary

Download exercise files

this button will look different and be a direct download link

as user scrolls through content, the nav will highlight the section they are on accordingly

when user first arrives to this page, the current lecture of the week will already be open.

grayed out if the course has not progressed this far yet

3 - CSS techniques

4 - CSS Layouts

Session 2 - HTML 5

XHTML

Sociis natoque penatibus et magnis dis parturient montes, nascetur ridiculus mus. Morbi leo risus, porta ac consectetur ac, vestibulum at eros. Aenean eu leo quam. Pellentesque ornare sem lacinia quam venenatis vestibulum. Nullam id dolor id nibh ultricies vehicula ut id elit.

- Fusce dapibus, tellus ac cursus commodo, tortor mauris condimentum nibh
- Vestibulum id ligula porta felis euismod semper.
- Cum sociis natoque penatibus et magnis dis parturient montes, nascetur ridiculus mus. Donec sed odio dui.

Curabitur blandit tempus porttitor. Donec id elit non mi porta gravida at eget metus. Nullam id dolor id nibh ultricies vehicula ut id elit. Lorem ipsum dolor sit amet, consectetur adipiscing elit.

what is xhtml?

Vestibulum id ligula porta felis euismod semper. Vivamus sagittis lacus vel augue laoreet rutrum faucibus dolor auctor. Maecenas sed diam eget risus varius blandit sit amet non magna. Nullam id dolor id nibh ultricies vehicula ut id elit.

Vestibulum id ligula porta felis euismod semper. Maecenas faucibus mollis interdum. Aenean eu leo quam. Pellentesque ornare sem lacinia quam venenatis vestibulum.

what's different?

Nullam id dolor id nibh ultricies vehicula ut id elit. Aenean eu leo quam. Pellentesque ornare sem lacinia quam venenatis vestibulum. Cum sociis natoque penatibus et magnis dis parturient montes, nascetur ridiculus mus. Donec sed odio dui.

HTML5

Sociis natoque penatibus et magnis dis parturient montes, nascetur ridiculus mus. Morbi leo risus, porta ac consectetur ac, vestibulum at eros. Donec ullamcorper nulla non metus auctor fringilla. Etiam porta sem malesuada magna mollis euismod.

adding titles, because sometimes students dont know exactly what exercise the prof is talking about.

progresses.

Quiz #3

Objective

Utilize advanced CSS selectors

Notes

This quiz is to be done individually, but is open book: you have access to any resources you need.

You may use embedded or external styles to complete this quiz

Instructions

Alter the style of the markup on the included html page so that it matches, as close as possible, the image beside it. You do NOT need to match the exact colors, fonts, etc, but you DO need to be close enough to exhibit the unique application of style on the various blocks of content. Use **only CSS** to effect changes, **do not alter the HTML**. The only change you may make to the HTML is adding a `<link>` or `<style>` tag

Submitting

Use a compression utility such as Winzip or Winrar to compress the .html, the .gif image, and your CSS into a .zip file. Name the file:

lastname_firstname_quiz03.zip

using your last and first name.

Upon completion, email the .zip file as an attachment to your instructor:

To: jeffrey_parker@bcit.ca

Subject: comp1950 quiz 3

Body: your name

Attached: zip file
